

Advancing Peace in your community

Based on 300 years of Quaker peace work in prisons, schools, and situations of violent tension, Help Increase the Peace Project is a creative process for transforming conflict and building community. HIPP workshops focus on reflective personal dialogue combined with energetic, fun activities, in order to foster experiential skill development based on real-life situations.

***IDEAL FOR:* Parents, teachers, students & student leaders, mentors, trainers, counselors, and all creative individuals who care about their community; ages 13 - 113 welcome**

More information can be found online at www.BEARDEDBABY.NET/PROJECTS
